Postsecondary Education Overview

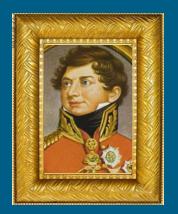

For the Marion
County Industrial
Foundation

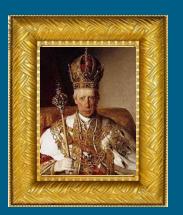

Presentation by Robert L. King CPE President March 18, 2011

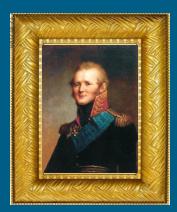

Imagine a G-8 in 1820. Members would have included...

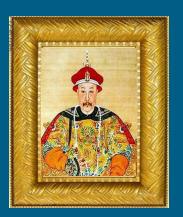

King George IV of England & Ruler of India

Emperor Francis I of Austria

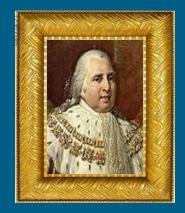

Tsar Alexander I of Russia

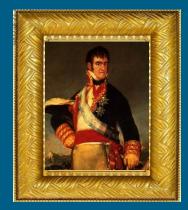

Emperor Jiaqing of China

Emperor Ninko of Japan

King Louis XVIII of France

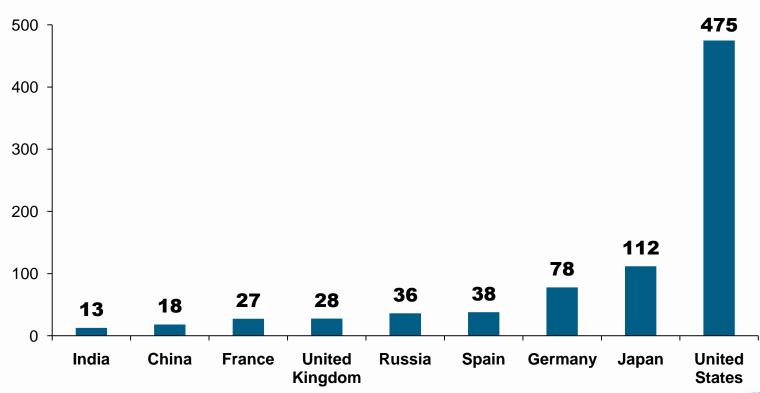

King Ferdinand VII of Spain

Growth of GDP from 1820 to 1994

in 1990 international (Geary-Khamis purchasing power parity) dollars

Three Principal Factors Led to the Growth of the U.S. Economy:

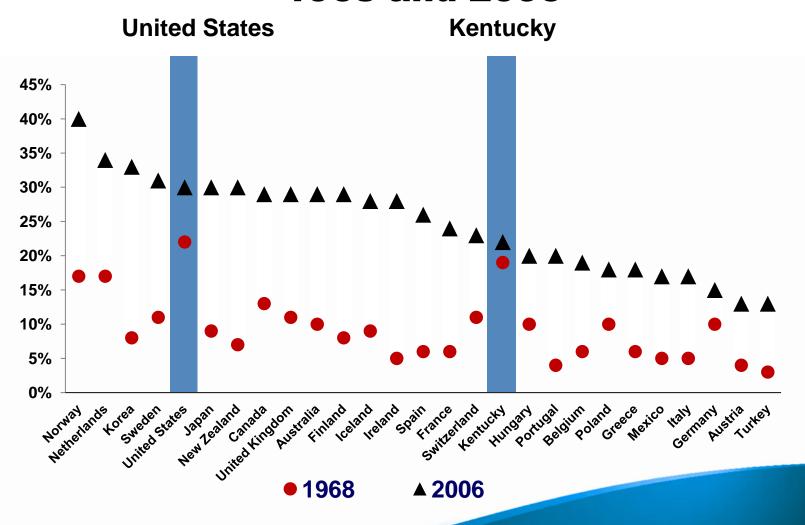

- 1. The U.S. embraced a free enterprise economy.
- 2. The U.S. made secondary education universal in the early 1900s.
- 3. The U.S. enacted legislation to expand access to higher education (e.g., Morrill Acts, G.I. Bill, Civil Rights Act, Pell Grant Program).

Human Capital Development

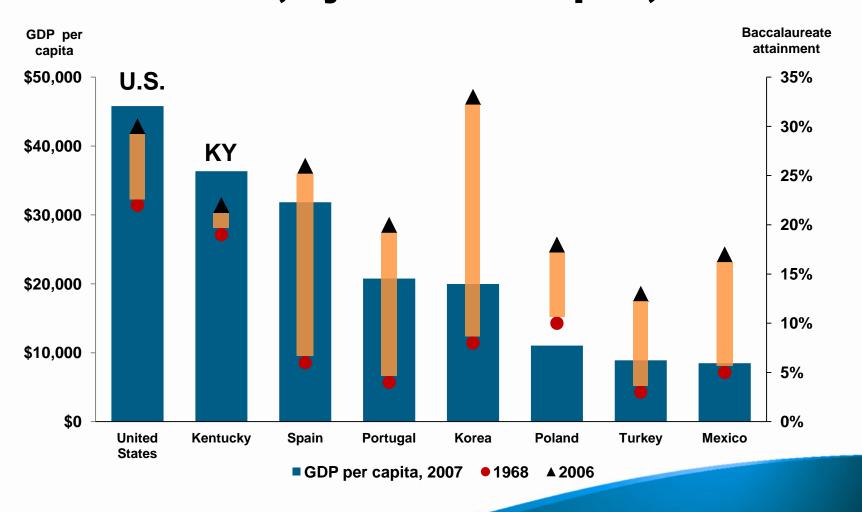

"The reason persistent growth is enabled by human capital formation is that human capital, unlike physical capital, has both the direct effect on the productivity of current labor and capital inputs, and an indirect effect on the production of more knowledge. A continuous accumulation of knowledge can thus lead to a self-sustaining growth in per capita income."
